DAWNING OF PEACE

Opinion of the London Press Regarding the Situation.

SCHOUVALOFF HAS SUCCEEDED.

Arrival of Indian Troops at Malta.

COTTON TROUBLES UNSETTLED.

Visit of an American Ship to Pitcairn Island.

> IBY CABLE TO THE HERALD. 1 LONDON, May 25, 1878.

The Standard this morning says:-"The Cabinet Council sat three hours yesterday, and will resume its deliberations to-day. We can renew with considerable confidence the statement that the difficulties are in a fair way of being removed. The prospects of peace are certainly brighter to-day than they have been for some time past.

UNDER PRESSURE.

"The Czar is resolute in regard to the retrocession of Bessarabia, but has made considerable advances in regard to the limits of Bulgaria. There need be no surprise if Russia, under pressure, consents to reduce the indemnity one half or even more."

DAYLIGHT ON THE HORIZON The Vienna correspondent of the Times selegraphs as follows:- The hopeful disposition in political circles increases, especially in St. Petersburg and Berlin. There has been an active interchange of ideas be tween Austria and Great Britain, which there is every reason to believe has by this time led to an almost perfect understanding between them, so

that Russia, by coming to an understanding with England, will also agree with Austria." SCHOUVALOFF'S INFORMATION.

The Morning Post of yesterday, after stating, as substantially announced yesterday, that Count ichonyaloff brings the assurance that the disposiion in St. Petersburg for peace quite equals that pressions of willingness to meet the English views and of a general scheme of arrangement for a reconciliation, though Russia declines to pass the sponge over the San Stefano treaty, but is prepared to discuss in a Congress its various supulations, adds:-

MUST STAND PIRMLY. "This to the general apprehension will appear to amount to a reiteration of Prince Gortschakoft's circular. On the other hand it is to be hoped that the British Cabinet will stand firmly by the conditions of Lord Salisbury's despatch."

THE INDIAN RESOLUTION. The majority in the House of Commons Thursday night against Lord Hartington's resolution, "that no forces be raised or kept by the Crown in time of peace, save within India, without the sanction Was nearly double the floure conceded by the opposition, all of whose estimates placed the government's majority at about saxty or seventy.

ring to this, says:- "This was because the debate brought out the fact that the real issue was approval or condemnation of the government's policy in utilizing the Indian troops. Under that interpretation the House voted upon it. EQUIVALENT TO A CENSURE.

"If the resolution had been carried it would have been accepted by all the world as a vote of censure. Questions of the legality and constitutionality of the government's methods may exercise Parita ment's attention at some other time. The resolu tion was properly considered in its bearing on th conduct of the government at a great political crisis, and in that light overwhelmingly defeated. THE CAUSE OF THE DEBATE.

The first two vessels of the fleet carrying the In-dian troops arrived at Malta yesterday. It will soon be seen whether Crete is to be occupied. AUSTRIA PULLY UNDERSTOUD.

Montenegro toward the Adriatic Sea becomes more pronounced. There is some talk of Austrian occupation of Antivari and Spitza. The Vienni correspondent of the Times says:-"Russia was long ago informed of Austria's determination in this respect." PREPARING POR PEACE.

Notwithstanding the confident expectation of an

early meeting of the Congress Austria's military preparations are unabated. AUSTRIA TO OCCUPY BOSNIA.

The Daily Telegraph has the following fro Vienna:-"A plan is under consideration here and at the Porte for a joint Austro-Turkish occupation of Boshia and Herzegovina. Austria awaits the sanction of the Porte and the Powers before taking any step. One object of the occupation would be to check the ambitious designs of Servia and Montenegro."

A special despatch to the Dally News from Rome says:-"Austria, fearing, in the event of seize Trent and the surrounding territory, has doubled the garrisons and quartered 45,000 troops

PREPARING FOR THE PUTCOR The Daily News' Vienna despatch reports that large quantities of stores are going to Trieste for transport to Dalmatian ports. Ironclads will leave immediately in the same direction.

WHAT MONTENEGRO INTENDS. Montenegro has assured Count Andrassy that she intends to keep the peace, and that her attitude

will be strictly defensive. PROVIDING AGAINST TORPEDO BOATS. German newspaper states that Great Britain has ordered of the Siemens Telegraph Works at

Berlin immediately 200 electric lights for the British fleet. These illuminate darkness to a distance of 250 yards. RUSSIA NOT IDLE.

A special despaten to the Post from St. Petersburg reports that three army corps has been ordered to Finland, where a considerable force is concentrating. The government has ordered, in the event of war, that all cruisers shall be manned by regular seamen and marines. IT FAILS TO AGREE.

The Russo-Turkish Commission, sitting at Constantinople, has failed to agree upon a line of dewhich the Turks refuse to concede.

THE CONGRESS. The Agence Eusse, of St. Petersburg, says so all seems to augur well for the assembling of the

The Roumanian Chamber of Deputies at Buchs

rest has voted 750,000£ (\$150,000) for clothing and mounting troops.

THE PIRE AT STAMBOUL. The fire among the buildings of the Subinne Porte proves to have been the work of an incen diary. One and a half million dollars deposited THE REASON FOR IT.

The Times has the following from Athens:-"The burning of the Sublime Porte buildings and the attempt of Ali Suavi to proclaim proach of the Russians to Constantinopie, cause the belief here that the Sultan has placed himself under the protection of the Russian GROSS EXAGGERATIONS.

The Times' despatch from San Stefano says the statements relative to the insurrection are gross exaggerations. No reports of an engagement have been received for some time past.

TAKE YOUR CHOICE.

The Standard's Constantinople correspondent telegraphs that the Porte has decided to surrender Varna, but another despatch from the Turkish capital declares that Varna will not be surrendered at

A REMINISCENCE OF THE BOUNTY MUTINY. The HERALD's correspondent at Queenstown tele-graphs that the American ship Annie H. Smith, Captain Bartlett, arrived at Queenstown yester day (Friday) from San Francisco, January 21. She touched at Pitcairn Island on March 2, and found the inhabitants, numbering eighty-six people, in good besith. This is and, it will be remem-bered, was selected by the survivors of the mutlay on the Bounty as their place of abode, and these ar scendants found by the Annie H. Smith.
DEFEAT OF THE ANTI-SOCIALIST BILL.

The first clause of the Anti-Socialist bill was de feated in the German Parliament yesterday by a vote of 251 to 57. Herr Hofman then, on behalf of the overnment, withdrew the bill. The session of Pariament closed last night.

The Post's Berlin despatch says:- 'The government has caused it to be stated that dissolution of Parliament is not contemplated in event of the failure of the Anti-Socialist bill.

DEBATE ON THE BILL. In yesterday's debate in the German Parliament on the Anti-Socialist bill Herr Benningsen charged the Federal Council with Introducing a bill which they knew would be overwhelmingly defeated, in order to have a pretext for the dissolution of Parliament.

A WARNING.
He warned the Council that this was a dangerous experiment and said that the national liberals do not clieve that the general condition of Gorman society requires the establishment of a dictatorship.

NATURALLY INDIGNANT. Herr Liebknecht, a socialist leader, said that his party refuse to participate in a debate based on the assumption that the socialists encourage murder. TOO LATE IN ACTING.

Herr Richter, for the advanced liberals, and Herr Joerg, for the ultramontanes, declared that the government had winked at socialism to order to discredit the political influences of the middle classes. Under this species of tostering the evil had attained formid able proportions, and could only be cared by indus trial and educational progress. DR. PALK LIKELY TO STAY,

The Berlin correspondent of the Times says :- "The Emperor and Prince Bismarck both oppose Dr. Faik's retirement from the Ministry of Public Instruction and Ecclesiastical Affairs, and Dr. Falk himself seems to have repented of his request for permission to go, PEDERALISM IN CATALONIA.

A Madrid despatch says:-"No importance is attributed to the federalist outbreak in Catalonia. The number of the insurgents is insignificant. They have been driven to the mountains, pursue 1 by troops." THE COTTON STRIKE.

The balloting in the cotton strike districts yesterday on Alderman Pickop's compromise proposal passed off quietly. There was no disorder anywhere. Of about eighteen thousand persons entitled to vote 13.817 voted. The following details of the voting on the com promise have been received:-Burnley, 4,999 against and 392 for; Blackburn, 4,536 against and 292 for; Darwen, 1,100 against and 96 for; Clitheroe, 968 against and 54 for; Harwood, 787 against and 4 for; Righton, 324 against and 22 for; Whalley, 151 agains, and 12 for, and Laughor, 75 against and 10 for. REPUSING THE BALLOT.

At Accrington, Oswaldtwistle and Padisham the operatives refused to take a ballot. There was no ballot at Preston because the weavers there are willing to accept the reduction. The result is hailed with by the operatives and makes little im pression on the masters. The strike will be indefinitely prolonged. Seventeen hundred colher have struck at Chadderton, in Lancashire, against a proposed reduction of seventeen per cent of their

CONDITION OF THE TRADE, The weekly circular of the Liverpool Cotton Brok

The weekly circular of the Liverpool Cotton Brokers' Association says:—

Cotton was in extensivo demand early in the week, prices advancing, and, though during the last few days the market has been quietor, the enhanced quotations are generally maintained. The American market opened with a large demand. An advance of \$\frac{1}{2}\text{d}\$, to 5-16d, was freely paid for medium and lower grades. At the close the inquiry was less active, but prices remain steady. See island was in moderate inquiry at unchanged rates. In futures there was a fair business throughout the week, and prices graduly improved, closing about 1-16d, above those of last Thursday.

LIVERPOOL GRAIN TRADE. A leading Liverpool grain circular of yesterday

A leading Liverpool grain circular of yesterday says:—
Under the influence of large American shipments and the more pacific aspect of politics the grain trade has been characterized by extreme dulness. Operations were confined to the narrowest limits. The Braish markets held this week note a decline of one stilling per quarter. Business in Liverpool since Tuesday has been aimost at a standatili. There were only a lew rotail sales of wheat at a decline of one penny per cental. Maize inoved slowly at barely previous rates. At to-day's market whoat was in better demand. There was considerable business in both white and red at two pence per cental decline. Flour was slow of sale and declined sixponce per barrel and one shilling per sack. Maize was in fair request at three pence under Tuesday's rates.

AGENTS INSPECTING RUSSIAN

STEAMERS. PHILADELPHIA. Pa., May 24, 1878.

Six accredited agents of the Russian gov erament reached this city from York late on Thursday night and are now occupying the best rooms at Guy's Hotel. They are accompanied by interpreters as they do not speak the English language. They visited Cramp's shippard to-day and inspected the preparations on the State of California and the stemmer Columbus. It is said they will visit Roach's ship yard at Chester to-morrow. They keep very quiet, and refuse to talk or allow their interpreters to say a word.

MEXICO.

EXCITEMENT REGARDING & CANADD-VALLARTE

STILL UNDECIDED.

Via HAVANA, May 24, 1878. The roport that a committee of Congress at Washing-ton has recommended the crossing of American troops into Mexico has caused great excitement. The Mexican lear that Texan Shbusters will combine with Lerdists, and thereby be enabled to get up raids either way.

VALLARTE CAN'T DECIDE.

It is uncertain whether Vallatic will accept the Ministry of Foreign Relations ad interior in offered. Justo Benitez, a prominent leader in Congress, is mentioned as likely to be appointed to fill the vacancy. Benitez is considered to be unfavorably disposed toward Americans and all other foreigners.

COAL PRODUCTION.

PHILADELPHIA, May 24, 1878.

The Schuyikill County Coal Exchange met to-day and fixed the prices for the month commencing today at the same figures which prevailed during the month just closed. From the statements made it month just closed. From the statements made it was learned that the amount of coal to be mined from July 1 until the end of the year will be 11,000,000 tons, which, with the 7,000,000 tons mined up to July 1, will make the total production for the year 18,000,000 tons. The original calculation of the coal combination was upon a basis of 20,000,000 tons. By this it will be seen that the restriction put upon the market will be two or perhaps three million tons. This will have a tendency to increase the demand and jut up prices.

TORNADOES IN THE WEST.

LARGE LOSS OF LIFE AND DESTRUCTION OF PROPERTY REPORTED-TERRIBLE FORCE OF THE WIND-ANIMALS BAISED INTO THE AIR AND THEOWN TO THE GROUND DEAD-FARM ROUSES DESTROYED.

[BY TELEGRAPH TO THE HERALD] Chicago, III , May 24, 1878. The terrible tornadoes which swept over a great portion of Wisconsin, Iowa and the northern part of Illinois last night devastated a wide stretch of country and resulted in the loss of many lives. In this State the greatest damage was done in the vicinity of of Chicago, where the house of a farmer, named William Brunes, was totally demolished and his wife and two children instantly killed. The wind came with such violence that various small buildings in the neighborhood were destroyed and several horses also killed. DETAILS OF DAMAGE DONE.

A special from Madison, Wis, says a singular phonomonon was witnessed there. The cyclone came from the south-southwest and was probably a Filteen or twenty barns are reported as destroyed. Two men were killed north of Mount Vernon, Wis., the storm striking a house and crushing it instantly. At Mount Vernon a storeksoper was killed, several per sons injured and many buildings destroyed. A report from Oregon says that near Paoli, Wis., and be-tween there and Belleville, a great many houses were tora down and three or four people killed. That great destruction of property and loss of life has foubt. There is no telegraph line through that part of the State and news comes in slowly.

SWOOP OF A WHIRLWIND.

It is reported from Madison, Wis., that a whiriwind struck the farm house of Mrs. B. F. Brown, four miles south of the city, in the town of Fitchburg, utterly demolishing it, carrying the debris in the air. The whirlwind also caught up and carried off a large straw stack. The cyclone seems to have swept down on this particular farm and then risen, carrying the débris over this city. Horses feeding in the field were caught up into the air and dashed to the ground dead. The storm is reported to have been very severe in the vicinity of Fort Atkinson, Wis. Houses were blown down and fences, wind mills and barns destroyed. PORCE OF THE WIND.

The wind was so swift that it raised stones eight inches in diameter and bowled them along the ground. Its path is strewn with broken fencer, trees and timber, so that the roads are impassable. Wagons and reapers were lifted into the air and then buried to the ground. Only one person was killed and one severely injured. One house was blown down and the inmates buried in the ruins, but Much damage is reported in the vicinity of Janes.

ville, Wis., and from Quincy, Ili., several deaths are reported. From the latter place it is telegraphed that great damage was done to fruits and cropa.

ADDITIONAL DETAILS OF THE STORM-LARGE LOSS OF LIFE REPORTED.

MADISON, Wis., May 24, 1878. The tornado which passed over this place last night proves to have been more widespread and destructive then was at first supposed. The storm came from the southwest and passed through a section of the State where there are no telegraph lines. Hence the details of the great destruction and loss of life are meagre. Enough has been received, however, to show that the received, however, to show that the devnatation and sacrifice of hie and property has
been appalling. In the vicinity of Primrose, twentyfive miles southwest of here, and from that point
through Mount Vernon to Paoli the storm has done
widespread damage. From twenty-five to thirty-three
barns and farm houses were blown down. Some of
them were tuterly destroyed and the deurs carried off
before the mighty wind, some of it falling twelve and
fifteen miles distant. A shutter of a window iell in
Lake Mondota, near this city.

Some twelve or eighteen persons are known to be
tilled and large numbers seriously injured. Graphic

Some twelve or eighteen persons are known to be stilled and large numbers seriously injured. Graphic yet terrible descriptions are given of the effect of the tornado. Teams and wagons are reported to have bent laken from the roads, carried into the air and dashed to the ground, at Dr. Geo, Fox's, near Oregon, two valuable horses in a pasture were taken up 100 teet in the air, carried fifty rods and instantly killed by being dashed to the earth. The storm came from the direction of Mineral Point, where it wrought terrible damage.

RISE AND PALL OF THE STORM.

It raised from the ground seven or eight miles

It raised from the ground seven or eight miles southwest of Madison and again struck the earth near Fort Atkins, northeast of here, near Frimrose and Faoi. The storm covered an area of Jrom one halt to one mile in width and swept everything before it, mowing down trees, leness, barns, houses and shrubbery as if with a scythe.

STARTLING ARREST.

[BY TELEGRAPH TO THE HEBALD.] BALTIMORE, MAY 24, 1878.

The arrest, this evening, at the instance of the Act ing Mayor and City Register, of ex-Judge George Bishop on a criminal charge, created general surprise in local political circles, and, notwithstanding the latences of the hour at which he was apprehended the intelligence circulated rapidly and widely. The

the intelligence circulated rapidly and widely. The specific charge is of "lorging an indorsement of bonds leaved by the Mayor and City Council of Baltimore to Frederick M. Keichum, Jr., for \$18,400."

A COMPLICATION OF CRIME.

Kotchum is a minor and his mother and guardian, Mrs. Ketchum, surrendered the guardianship on the 10th inst, when it was discovered that the securities had disappeared from a box in the Safe Deposit Company. Isaac W. M. Helm, hor sen, it is supposed, abstracted the securities, having been intrusted with a key to the box and negotiated them at two city banks. He is now under arrest for a violation of the Internal Revenue laws. Helm is a step-brother of young Ketchum. Judge Bishop is supposed to be implicated with him in the negotiation.

Bishop was a judge of the Orphans' Court for four years prior to 1875, and before that time was for sexeral years a member and president of the first branch of the City Council, and frequently acted as explicitly agard and a second of the City Council and frequently acted as explicitly agard and accelerate means. He declined to make any statement, and was held for a bearing to-morrow, when the detectives intimate some important disclosures will be made.

SOCIAL SCIENCE.

SOCIAL SCIENCE.

CLOSING SESSION OF THE CONVENTION.

CINCINNATI, Obio, May 24, 1878. This morning, in the Social Science Convention, W

G. Moody presented a paper upon the "Displace ment of Labor by lprovements in Machin cry." This paper is the result of th labors of a Social Science committee, composed of Lorin Blodgett, ot Philadelphia; Edward Everett Hale, John J. McNutt, H. C. Turner Edward Everett Hale, John J. McNutt, H. C. Turner and Mr. Moody, of Boston. A debate on the labor question followed. In summing up the conclusion as regards improved machinery affecting agricultural operations there is a unphacement of labor, of one to three in sowing grain, of one to twelve in ploughing, of one to 384 in reaping. Investigation shows the increase in the production of boots and shoes by improved machinery nearly lour hundred and fitty per cent in twenty years, and thriteen hundred per cent over hand labor fifty years ago.

Atterward Mr. Charles Rosmelin, of Uncinnati, presented a paper of great length upon "The Public Lands."

The atternoon session opened with a debate on

THE OCCASION COMMEMORATED HEART, LY IN THE OLD DOMINION.

[BY TELEGRAPH TO THE HEBALD.] FARMVILLE, Va., May 24, 1878. The annual celebration of Queen Victoria's birthday was conducted in royal fashion here to-day. The address was delivered by Mr. Alfred Moth, on the "Future of British Immigration to Virginia." Mr. Moth, who was the first Eng-

ginta." Mr. Moth, who was the first Englishman who settled in this State after the civil war, said that in spite of some drawbacks British colonization had proyed remarkably successful in all cases where the settlers had been men of the right stamp. As soon as times begin to mend, peace in Europe was assured and the State debt agitation was closed there would be a large influx of capital and immigrants.

— Mr. Charles Bugg, who presided at the social gathering, said Englishmen loved Old Virginia because this state came nearest to their loving recollection of Old England.

In response to the toast of "The Queen," Mr. William Tomilia, of Bridgeport, Conn., the Secretary of the North America. St. George's Union, said that Anglo-Americans everywhere were now united as never before. There were upward of interface indicated and the Sapony colony which no had founded in Drawiddle county, was beyond his anticipations; the wars also working up the St. George's Popping and proposed to be established in Prince Edward county.
